Course Description:

Mathematics for Liberal arts is designed for students who are in majors who do not require an algebra approach. The course will cover the basics of geometry, logic, counting principles, probability, and normal distributions. All course competencies can be found at:

http://www.mdc.edu/asa/popups/course_competencies.asp

Text:

Thinking Mathematically, Blitzer, 7th edition

Course Requirements:

MyMathLab Access Code, which can be purchased in the bookstore or online at www.mymathlab.com. Access to the online site, MyMathLab, includes an eBook. Purchasing a hardcopy of the text is optional. Mymathlab registration period ends on January 24th. Instructor does not authorize registration after 01/24.

Attendance:

Attendance will be taken during each class period. Students who miss three or more classes may be withdrawn from the course. If you expect to miss a class or have missed a class for a valid reason, email your instructor.

Grading Policy: _____

There will be homework assigned on a weekly basis. All the homework put together will count as a single exam, and addition to the homework there will be 5 in class exams. All exams and homework will be weighted equally. There will be an optional final exam which replaces the lowest test grade if you decide to take it.

Your grade will be calculated using the following formula:

$$Grade = \frac{HW + T_1 + T_2 + T_3 + T_4 + T_5}{6}$$

Your final grade will be distributed according to the following scale:

Average of 90-100%	A
Average of 80-89%	B
Average of 70-79%	C
Average of 60-69%	D
Average below 60%	F
